

Sociology of Education I

Syllabus Number SOC-223
Elective 2 credit
YAMAGUCHI, Takashi

1. Course Description

There are many biases involved in the narrative of educational problems. Because of this, it is necessary to maintain a critical stance and to ask many questions, such as what basis exists, and what is being overlooked. The goal of this course is to help students learn to analyze education from a sociological perspective through an examination of educational problems and a questioning of "commonsense."
