

Sociology in English II

Syllabus Number

SOC-111

Elective

2 credit

KANNO, Hiroshi

1. Course Description

Why do Japanese people think or act like that? This is the basic question of non-Japanese, which sometimes Japanese can't answer clearly.

In this English class, I will use this question to clarify Japanese cultures and reveal the hidden logic of Japanese society. The effects of this class I will expect are as follows: for Japanese students, getting to know how to explain the Japanese way of living and for non-Japanese students, deep understanding of Japanese cultures and system of its society.
