

Seminar I

Syllabus Number

SEM-301

Compulsory 2
credit

YAMASHITA, Shinichi

1. Course Description

This seminar is design to conduct a groupwork survey and analysis on the current issues and future directions for the creation of sustainable tourism destination aiming to build the win-win relationship of the four sides (Visitor, Industry, Community and Environment) toward achieving SDGs. In addition, this seminar will engage to make proposals for solving future issues with accurately grasping the trends of Smart City progressing and the status of new transportation evolution supporting residents and tourists such as MaaS in the era of digital transformation (DX).
