

Introduction to Clinical Psychology

Syllabus Number

CLI-101

Compulsory 2
credit

INAGAKI, Ayako

1. Course Description

This course is designed to provide an overview of major themes in clinical psychology for first grade students. Topics in this course include some fundamental issues in the field of clinical psychology (history, psychopathology, clinical assessment, psychotherapy, contemporary issues and clinical study). Students are expected to participate actively and acquire basic knowledge and theories about clinical psychology.
