

Career Design and Education

Syllabus Number

CAE-101

Compulsory Elective
2 credit

SUZUKI, Kaeko

1. Course Description

As the structure of society is undergoing major changes, people are being asked to be literate in order to choose their own career paths.

In this class, we will explore the state of education and society in Japan and outside by looking back at the relationship between education and society and the formation of career paths nowadays.

We will discuss the role of education in “how to design one's future career in the midst of diversifying lifestyles”.
