

# Economic Policy II

Syllabus Number	ECP-210
	Elective 2 credit
TOMITA, Hideaki	

## 1. Course Description

We are affected by various economic policies implemented by the government and the Bank of Japan. Typical economic policies include macro-fiscal and monetary policies, protective trade policies and industrial policies. This course aims to acquire the basic theory for evaluating various economic policies that affect corporate management in order to deal with practical issues that arise in the field of corporate management. The main purpose of the latter period is to be able to evaluate the effects of fiscal and monetary policies aimed at stabilizing the macro economy.
