

Senior Seminar II

Syllabus Number

THE-402

Compulsory 2
credit

NAKAYAMA, Kyoko

1. Course Description

Prerequisite: Seminar: Education II—Students will conduct research on a theme developed during the Education I seminar and based on their individual interest in international education. Students will give a class presentation based on their research as well as write an essay to review the results of their studies. Examples include but are not limited to the following: Development of teaching materials for international education for a particular emphasis on a specific country or area; case study for issues within a multicultural district; analysis of textbooks from the view of the international educator; etc.
