

Special Topics in Home Economics Education

Syllabus Number

ESS-407

Elective

2 credit

KATSUTA, Eiko

1. Course Description

In this course, the primary aim is to ensure the acquisition of knowledge and skills for confidently teaching elementary school home economics as a teacher. In particular, sewing will be carefully handled from the basics, including safety guidance. Classes focus on practical and experiential activities by groups. In addition, we will study how to teach home economics to bring out "independent, interactive and deep learning" through practical and experiential activities in the group, so that we can grasp ways to create better classes. .
