

International Development II

Syllabus Number

INR-304

Compulsory Elective
2 credit

KAWAGUCHI, Jun

1. Course Description

The aim of International Development I was to analyze the issues facing the world from various perspectives and to grasp the problems in a systematic way. Based on this knowledge, International Development II aims to give an overview of the goals (mainly SDGs) set to solve the problems and to understand the actual activities of various actors involved in international development theory.
