

Application of Information Media

Syllabus Number

LIH-203

Librarian Teachers'
License Program
Elective 2 credit

AOYAMA, Hirono

1. Course Description

This course is designed for learning how to utilize a school library at schools. In this course, you will focus on how the library can effectively introduce information media in school community. Students will practice the simulated procedure of guided inquiry process at schools. i.e., making slides, presentation notes, and report writing. It will show the way to develop the information literacy in learning process.
