

Seminar I

Syllabus Number

SEM-301

Compulsory 2
credit

KUDO, Mei

1. Course Description

The EU includes 27 member countries with different economic, social, political backgrounds, and it is not easy to keep cohesion between them, facing 'crises' for several times. In addition, some countries chose not to join the EU or exit the EU like the UK.

In this seminar I, we will study nature and characteristics of the major EU member countries, and find out advantages and disadvantages of EU participation, comparing differences and common ground between European countries.
