

# 総合経済Ⅰ

Syllabus Number

ECP-401

Compulsory Elective  
2 credit

TANAKA, Kenji

## 1. Course Description

The aim of this course is to learn the current situation and the major issues of the Japanese economy by using economic theories and data. Taking the effects of economic globalization into account, we are unable to discuss the Japanese economy without considering its relationship with other countries. Therefore, we focus not only on Japan's own economic issues, but also on the world economy. This course thus aims to understand the Japanese economy from a global perspective.
