

Seminar IV

Syllabus Number

SEM-402

Compulsory 2
credit

NAGASHIMA, Koichi

1. Course Description

This seminar is about civil procedure, but we will consider procedural issues in litigation of environmental problems, medical malpractice and Internet dispute. Accordingly, I welcome the students who are interested in civil procedure, environmental law, medical law and information law. We study environmental litigation by reading court cases, in addition to the looking at the video, interviewing the officials and lawyers, etc. Depending on the progress of the discussion, we will want to challenge a moot trial.
