1. Course Description

This course is for acquiring a certified picture book qualification, and aims to "deepen knowledge", "improve skills", and "improve sensitivity" regarding picture books. A certified picture book technician is a qualification certified by the Picture Book Specialist Committee (the secretariat is within the National Youth Education and Reconstruction Organization under the jurisdiction of the Ministry of Education, Culture, Sports, Science and Technology). It is set based on the "Guidelines for the Curriculum of Certified Picture Book Master Training Courses" established by the Board of Directors. Faculty members inside and outside the university will develop unique classes based on their respective specialties at omnibus.
