	KOMATSU,	
	TSUJITA, Masaki	ONOJIMA, Moe
	YUASA, Aya	OOI, Hitomi
	WAKITA, Masumi	KOGA, Norie
	SANEYOSHI, Ayako	

1. Course Description

The purpose of this lecture is to learn important research methods in psychology such as experiments, surveys, and statistical analysis. Students will be assigned to a group, and be taught by some teachers. They will learn some themes through all lessons. For each theme, students have to analyze data that is obtained in an experiment, look up literature, and submit a report until next week.
