

Seminar: Comparative Culture 1

Compulsory Elective
2 credit

HAMADA, Yo

1. Course Description

There are a wide range of research areas and themes in Japanese culture. To cultivate the ability to research and present Japanese culture from a broad, multi-disciplinary perspective through a cultural studies approach. Original research themes are encouraged. Familiarize yourself with the research themes of all seminar members and promote new collaborative research on Japanese culture. Throughout the course of the seminar, students will consider and reflect on the various opinions expressed in discussions and presentations, and complete and submit a "Research Proposal Resume".
