

Seminar: Comparative Culture 2

Compulsory Elective
2 credit

HAMADA, Yo

1. Course Description

To cultivate the ability to research and present Japanese culture from a broad, multi-disciplinary perspective through a cultural studies approach. To become familiar with the research themes of all seminar members and promote new collaborative research on Japanese culture.

Throughout the course of the seminar, students will consider and reflect on the various opinions received through discussions and presentations, and complete a "Research Resume" that further elaborates and develops the content of their research, and submit it in both online and printed versions.
