Elective

2 credit

HASHIMOTO, Kazuaki

## 1. Course Description

I raise interest in teaching profession and deepen knowledge understanding and see about aptitude of the self while trying for improvement of nature, the ability and plan the manner formation for the teaching profession, and you should continue studying the teacher-training course, or oneself aims at touching the power that I can judge precisely how about. Therefore, about the teaching profession such as school education and significance of the teaching profession, a role, job specifications, the training of the teacher, as for the history, the idea, the system, the actual situation, multidirectional through activities such as discussion or the group work; research it versatily. In addition, I stare at oneself through learning activity objectively and push forward a self-analysis, self-understanding and grasp aptitude to the teaching profession and plan the clarification of problem in the future.
