

# Curriculum Studies

Syllabus Number	ESS-202
Elective	2 credit
MAEJIMA, Masaaki	

## 1. Course Description

The curriculum is the basic educational plan for conducting school educational activities. Students will understand the basic theory of curriculum organization and implementation and the actual organization and implementation in schools through discussions, group work, and presentations. And they will learn that the curriculum changes depending on the social situation and national education policy and consider what the curriculum is desirable for schools and students.
