

アジア経済論Ⅲ (Asian EconomyⅢ)

科目ナンバリング ECP-309
選択 2単位

長田 博

1. 授業の概要(ねらい)

この講義は英語で行います。

The English title of this class is “Asian Economy III”; and the taught language of this class is English.

The contemporary Asian economies had been characterized by their dynamic growth, diversity in the growth performances, and deepening economic integration. However, recent Asia came to face various new issues such as dominance of Chinese economy and receding Japanese economy, emergence of India and expected emergence of Indonesia, worsening income inequality in every country, aging society and environmental problem and so forth.

This class aims to understand features and diversities in Asian economies through the country-wise study. Country study put importance in its macro-economic analysis based on statistics. Students are asked to make presentation and write a report on one of the Asian economies.

The first 30 minutes of each class will be used for the presentation and discussion of the news on Asian economy by two students .

Participation in the class discussion will be highly welcomed.

2. 授業の到達目標

①Students will be able to explain the features of each economies in Asia.

②Students will be able to give appropriate comments on most of the economic news on Asia.

3. 成績評価の方法および基準

1. Active participation in the class (20%).

2. Presentation (30%).

3. Report on a Asian country's economy other than the student's own country (50%).

4. 教科書・参考文献

教科書
