

産業実務演習Ⅲ (Business Management and PracticeⅢ)

科目ナンバリング MAN-211
選択必修 2単位

関根 勇

1. 授業の概要(ねらい)

This course is designed for students to learn “financial analysis” which is the examination of financial information to make business decisions. In the first half, we will learn structures and vocabulary of financial statements and focus on financial statement analysis. We will compare financial statements and ratios among industries or among competitors in the same industry. Students are required to discuss next necessary actions among group members and present their recommendations.

2. 授業の到達目標

- ① Explain nature and structure of financial statements
- ② Utilize financial ratios to validate companies' financial soundness and profitability

3. 成績評価の方法および基準

Class participation and presentation (30%)

Drill submission (30%)

Final report submission (40%)
