

## 1. 授業の概要(ねらい)

In this participatory English course students will work individually and in pairs to develop their English communication skills. In addition to improving their vocabulary and conversational skills through the use of textbooks and activities, the students will also learn about Canadian and American culture. As all lessons will be in English only, students will be encouraged to use English when asking questions and working with other students in the classroom.

## 2. 授業の到達目標

The objective of the course is to encourage students to communicate about their lives, cultures and interests using English. The students will work in pairs and groups and learn how to initiate and contribute to conversations. While testing and assignments will play an important role in the course, participation in class will be the most important.
