1. 授業の概要(ねらい)

This course (composed of Development Finance III in the spring semester and Development Finance IV in the autumn semester) deals with development finance issues in developing Asia. Development Finance IV will discuss growth of green and social finance (Theme 1), and finance for infrastructure development (Theme 2). The roles of private finance in the context of green and social finance and finance for public-private partnership (PPP) projects will be emphasized with some case studies taken from actual projects implemented in developing Asian countries.

An appointed student will make a presentation on the assigned topics in the textbook in class and the class will discuss the topics based on the presentation.

Though the course basically targets for TAEP students, challenging Japanese students and students from Asian countries are also welcome. The course will be conducted in English.

2. 授業の到達目標

This is an introductory course. By the end of Development Finance IV, students will be able to understand the current status and hurdles in (i) promoting green and social financing and (ii) applying PPP modality in infrastructure development in developing countries in Asia.

3. 成績評価の方法および基準

Grades will be determined by the combination of class participation (60%), which includes attendance, the degree of participation in discussions and the quality of presentations, and the final report (40%).
