

# Pre-Internship

Syllabus Number

8B203

Major Course:  
Experiment and Seminar  
Elective 1 credit

MORIMOTO, Noriko

## 1. Course Description

Internship has a meaning to have a clearer understanding of what they should do in the rest of the university life, to foster a view of the profession. In addition, by experiencing practical training, students will be able to find job hunting activities smooth and become able to adapt well in the workplace after going to society upon graduation. Through internship, it is important for students to have the opportunity to learn from experience working in society, review their life as students, and prepare their minds to adjust themselves working in society.

For that reason, students need to know the significance of internship and to have a clear understanding of their purpose of participation. In this course, we will focus on the meaning of internship they will do before job hunting and focus on preparatory activities for internship to participate in the future. This course will be conducted not only through individual works but also through group activities.

For the diploma policy corresponding to this course, please refer to the subject table of each department.

## 2. Course Objectives

In this course, students can learn about the significance of internships for college students to work in society and deepen their understanding of internship itself. Students will be able to imagine the practice next year by listening to their senior's presentation who experienced internship. In addition, students learn the method of enterprise research, actually searching for information, learn practical flow and document preparation for application. Furthermore, students learn about manners and rules as workers in the society that are required for internships in a group work format.

## 3. Grading Policy

Report on desired internship (40%), self-introduction papers toward desired training place (30%), final papers (30%)

Students are able to verbalize the interests of internships they desire to engage, and they will be evaluated according to whether they are logically and concretely considered by associating the desired internship learning with the way they wish to work after graduation .

Feedback on the whole will be given in the last class.

## 4. Textbook and Reference

Textbook

Handouts will be distributed during the class.

## 5. Requirements(Assignments)

Students should think about their future career choice from what they learned in Career Design 1. For that purpose, students should utilize resources such as newspapers, books, the Internet and collect internship information. 15 hours or more preliminary review is required during this period.
