

Study of Extra-Curricular Activities

Teacher Licence
Subjects Requisites
2 credit

WADA, Takashi

1. Course Description

We will learn about the significant part of extracurricular activities play in making school life fun and varied, and how they provide a platform for children and students to develop their own personalities and social skills. In addition to studying practical teaching methods, we will examine the qualifications and skills required in teachers and the school systems for extracurricular activities, as well as the current issues associated with their delivery.

2. Course Objectives

- 1.Students can understand the educational significance of extracurricular activities, together with its position in the educational curriculum as well as its contents.
- 2.Students can create guidance plans and guidance materials for extracurricular activities.
- 3.Students can acquire the basic teaching methods such as group activities and discussion activities, which are the basis of guiding extracurricular activities.

3. Grading Policy

The evaluation is based on a problem report (50%) and a subject acquirement examination (50%).
I will correct the reports and return to students with sleeve notes.
