

Agricultural Economics II

Syllabus Number

8D204

Major Course: Regional
Economics Elective
2 credit

TAMA Shinnosuke

1. Course Description

Agricultural products and food are indispensable in our daily life every day. However, the market and distribution of agricultural products and foods are undergoing major changes. Understanding the diversifying and changing market and distribution of agricultural products and foods is important knowledge for us to live a safe and secure life. In this lesson, students will acquire accurate knowledge based on textbooks, discuss through the class, and acquire knowledge, skills, and attitudes regarding DP1.

2. Course Objectives

1. Students can explain the organization and structure of agricultural products and food markets and distribution.
2. Students can explain the market and distribution organization and structure of agricultural products by item.
3. Students can explain international trade and safety issues related to agricultural products and foods.
- Four. Students can demonstrate their attitudes about the consumption of agricultural products and food as consumers.

3. Grading Policy

Regular quiz(25%), Mid-term exam (25%), final exam (50%), total (100%).

The midterm exam will be returned to you and deepen our understanding once again.
