

System and Management of Education Syllabus Number 0M101
General Basic Subjects
Elective 2 credit
FURUYA Masanobu

1. Course Description

- In this course, students will learn about the structure, content, interpretation, and reform of the legal system regarding school education.
- This course will provide an opportunity for students to learn about curriculum management and crisis management currently required in school education.
- In addition to lecture-format classes, the 8th and 15th class will be conducted as a dialogue with the students encouraging active learning.
- This course is related to Learning Goal 3 of "General Subjects".

2. Course Objectives

- Students show interest in the discussions on the structure, content, interpretation, and reform of the legal system regarding school education. (Interest and motivation)
- Students understand the legal system that supports education and the schooling system. (Knowledge and understanding)
- Students develop an idea of the desired future school education, from the perspective of creating a safe and secure school where the human rights of children are protected (Expression)

3. Grading Policy

- Reflection paper (indication of attendance and learning) 30%
- Participation and attitude in class (dialogue) 30%
- Writing assignment "What is desired for future school education?" 40%
